Henry Beeson

*Shreveport, LA
1925*

This chart gives all descendants for the first four generations of the Beesons in America to the best of the author's knowledge and represents years of study and research. Any corrections or additions will be appreciated since it is only by extending one's knowledge that such a chart may grow. Many of the branches can be carried for many generations beyond those shown and the author can furnish such of this information as may be desired on request. Dates of births, deaths and marriages can be also furnished for most names. No attempt has been made to carry persons having other surnames beyond the children of Beeson women.
