Foreword

The data contained in this publication taken from the applications of Maryland veterans of the Revolutionary War, their widows and their heirs for Federal pensions and bounty land are about as complete as it is possible to obtain from official sources. They include the rejected claims as well as the approved. The only exception is the elimination of identified colored veterans and of several native Europeans who had contracted marriages with women not of their race. The information was obtained from the original applications, all facts stated under oaths with affidavits.

In the preparation of this work, a complete digest of the claim, including all facts pertaining to genealogy or clues for the genealogist and to history, was made. Many valuable and interesting items were collected, among which were over 700 Bible records and several militia muster rolls, copies of which were not among the public or official papers of the State of Maryland. *Anyone wishing further information or certification regarding any of the persons in this compilation may obtain such by communicating with the compiler.* A nominal fee will be charged for the service.

Part III

List of Maryland soldiers (non-pensioners) established by affidavits and muster rolls found in pension applications. Owing to the fact that services of commissioned officers in the Army are easily proved, the list contains only privates and officers of the Naval or Sea Service.

NOTE: Proof and certification of services of the following men may be secured from the compiler.
