AGRICULTURAL STATISTICS

(From the United States Census Report)

Maine has a total land area of 29,895 square miles, of which 9,844 square miles, or 32.9% are included in farms. The surface consists of two great slopes, the northern and the southern. The northern slope, comprising about one-third of the total area is drained by the St. John river and its tributaries, the southern slope by numerous streams which flow into the Atlantic. The broad, flat divide which separates the two slopes serves as a natural reservoir, most of the rivers of the state having their sources in the large lakes of this region. Some of the lakes have outlets on both sides of the watershed.

The surface of a large part of the state is rugged and broken. The soil of the river valleys is very productive, but in the mountainous regions and along the sea coast it is for the most part sterile. The Aroostook Valley, which comprises the largest area of fertile farming land in New England, has a deep, porous, yellow loam, especially adapted to the growing of fruits and vegetables. This section has developed remarkably during the last decade.

WAYNE, MAINE.

Census-1905

The population of the Towns of Wayne, Wales, Leeds Greene and Monmouth has been arranged in families where that arrangement has been possible. In these families, in addition to the resident living members, the names of the non-resident members are included. It should be borne in mind that this plan does not include the names of all former residents of this town, as the names of the non-residents appear only when one or both of the parents are still living in the town. After the name of each non-resident will be found the present address, when such address has been given to us. Non-residents are indicated by the (*).

When a daughter in a family has married, her name taken in marriage appears after her given name in parenthesis, the name preceded by a small m, thus: (m).

Following the names of the population is the occupations. To designate these we have used the more common abbreviations and contractions, as follows: Farmer—far; carpenter—car; railroad service—R R ser; student, a member of an advanced institution of learning—stu; pupil, a member of a lower grade of schools (including all who have reached the age of five years)—pl; housework—ho; laborer—lab; physician and surgeon—phy & sur; clergyman—clerg; merchant—mer; teacher—tr; blacksmith—blk; clerk—cl; bookkeeper—bk kpr; lawyer—law; mechanic—mech; machinist—mach; engineer—eng; maker—mkr; worker—wkr; work—wk; shoe shop work—shoe op; cotton or woolen mill operatives—mill op; weaver—weav; spinner—spinn; electrician—elec; painter—ptr; carriage work—car wk; dress maker—dr mkr; insurance—ins; traveling salesman, or commercial traveler—sales, or coml trav; music teacher—mus tr; teamster—team; general work—genl wk; mariner—mar; employ—emp; retired—retd; scythe shop—sy. shp.

This census was taken expressly for this work during the Summer of 1905, by John M. Gott.

Census of Wayne 1905.

NOTE.—The following abbreviations of Post Office addresses have been used in the census of Wayne: North Wayne—North; North Leeds—No. Lds.; R. F. D. 25 Wayne—No. 25; Winthrop R. F. D. No. 23—Win. 23; Winthrop R. F. D. No. 24—Win. 24; Monmouth R. F. D. No. 20—Mon. 20. Where no address is given, Wayne, Me. is understood.

TO NEGLECT YOUR EYES

You only increase your trouble by allowing the errors of refraction in your eyes to go uncorrected. The eyes are very delicate in structure and when abused either by hard use or by careless treatment they soon fail to do their work

and glasses are necessary.

I make a specialty of correcting errors of refraction only and with the success that I have had feel fully confident to fit you properly with glasses.

I use a dark room for all eye tests.

Open Wednesday and Saturday evenings. Any other evening by appointment.
