## PREFACE

Byron Terwilliger, one of our finest local historians until his death in 1962, several times expressed his dissatisfaction with the "rush job" he did in copying 786 inscriptions, mostly from Section B, for "Old Gravestones of Ulster County" in 1931. I take pleasure in completing his work and offering it as a memorial to this outstanding citizen.

This is a compilation and cross-checking of tombstone inscriptions with official cemetery records, burial permits, town clerk's and church records, and our own extensive genealogical files. In the majority of cases, I have been able to supply missing maiden names from other sources, and women are indexed under such maiden name wherever possible.

Many tombstones pre-dating the founding of the cemetery in 1862 were moved from small family plots. Some inscriptions with blank dates of people still living are also included for future genealogical value. Records are included to October 1, 1962. Some unmarked single-grave interments cannot be accurately located. These have been listed after Section F.

Middle names have been filled in and also exact dates where they are available from other sources. Place of death (except New Paltz) is listed where it is available from the burial permit.

Abbreviations are as follows:

- b. - born
- d. - died
- tc - their child
- hw - his wife
- hh - her husband
- @ - at age .. years.. months.. days
- bur. - buried (where exact death date is not available)

Listing follows the plot numbers on the official map of the cemetery, with interments in each plot arranged to show relationships as well as possible. An alphabetical index at the end will be of assistance. The original owner & date of purchase are listed in capitals for each plot.
