DESCENDANTS OF ROBERT GOOLD

Who Came to America in the Year 1665

The following pages constitute an abbreviated list of the identified persons in ten generations of this family. IS YOUR NAME IN THE LIST? Are the names of your parents or grandparents or any other relative of yours in this list? If they are not do you know, or believe, that they should be included?

Several members of this family have been cooperating to collect, as completely as possible, the genealogical history of the family. These pages are sent to you as an invitation to join us in the project.

The Detroit, Mich., SOCIETY FOR GENEALOGICAL RESEARCH has published our findings regarding the first six generations. This material appeared serially in seven issues of the society's MAGAZINE - 1958 Fall, Winter; 1959 Spring, Summer, Fall, Winter; 1960 Spring. In the Magazine, and in our record, each person whose name is here printed in CAPITAL LETTERS is given extensive treatment; consisting of paragraphs of genealogical material, paragraphs of biographical data, a dated list of all children and a list of references which substantiate the record.

We solicit any and all corrections, extensions, and such new additions as you may be able to supply. Further pertinent information is desired about each person whose name appears in this list. Where this symbol (- ? -) appears following a name, it indicates that data is especially sought regarding each individual so marked.

An asterisk (*) preceding a name indicates that a photograph of that person is in our file. If you will loan us identified photographs of family members which may be in your possession, we will make a photographic copy and return the original to you. We also have a considerable number of unidentified photographs taken from Goold-Goold family albums or Bibles which we will send to you if you believe you may be able to assist us in making identifications.

We are seeking some means of duplication which will enable us to place the entire findings in the hands of interested persons. The original, which at present is in typewritten form, together with copies of accumulated photographs will probably be placed eventually in the archives of some library or society where it may be made available to future generations of the family. The entire project is a cooperative undertaking and is without any form of commercial interest.

Names, dates, and places are the basis of genealogical records. Where possible, give the names of persons in full (family name with first and second given names); dates in full (day, month and year); places in full (town, county and state).

Any data we have will be yours for the asking. Your acknowledgement of receipt of this material will be appreciated and any corrections, additions, suggestions or comment will be gratefully received.
