ORIGIN OF THE NAME HOLLON

AND

SOME ANCESTORS

Compiled by CLAY HOLLON  
4418 N. Monitor Ave.  
Chicago 30, Ill.

The name HOLLON is found on ancient records with five other spellings: Hollan, Hollen, Holland and Holand—all used by sons of the original family. Even today, there are to be found branches each using one of the above spellings. However, Hollon and Holland are the ones most used today. About 250 years ago various branches began the use of only one of the two names, thus separating into two distinct branches, each having increased to a multitude of descendants spread all over America. Records show that as late as 1850 some continued to use the two names interchangeably.

The name originated in county Lancashire, England, early in the thirteenth century, where Matthew and Alan shared their father's estate.

"Branches of this illustrious family soon spread to counties of Sussex, Surrey, Norfolk, Chester, and Lincoln, as well as into Ireland and Wales."

The Coat-of-Arms of this family originating in county Lancashire is described in Burke's "General Heraldry" as: Per Pale, Gules, Azure, a Lion Rampant, Or—meaning five colors: Silver, red, blue, black, gold.

All names of children of the following sixteen generations are not given herein because of lack of space. Only name of each succeeding son is given through whom the family blood line is carried down.

1. Matthew, who in the early part of the thirteenth century shared his father's estate with his brother Alan.
2. Robert, lord of Holland and eldest son of Matthew, succeeded to the family honors and estates in the year 1224, married Cecily de Columbers; had six children.
3. Sir Thurstan, fifth son of Robert and Cecily, continued the direct line of the family; married the daughter and heiress of Adam de Kellett, lord of Nether Kellett; had four sons.
4. William, lord of Sharpels and eldest son of Sir Thurstan and wife \_\_Kellett, married second time and had three sons by second wife.

5. Sir William, eldest son of William, lord of Sharpels, married Margaret of Shoresworth, heiress of Denton; had two sons.
6. Thurstan, second son of Sir William and Margaret, married in 1316, Mary Collyer; had four sons.
7. Richard, eldest son of Thurstan and Mary Collyer, married in 1358, Ameria de Kenyon; had three sons.
8. Thurstan, eldest son of Richard and Ameria, married Agnes \_\_; had four sons.
9. Sir Thurstan, fourth son of Thurstan and Agnes, succeeded to the family honors and estates in 1430, his three brothers having died, married first, Margaret de Aldburgham—divorced her in 1429—no children. He married second, in 1430 Margaret Warren; had one son.
10. Richard, only son of Sir Thurstan and Margaret Warren, married Agnes \_\_; had three sons.
11. Richard, eldest son of Richard and Agnes, married in 1456, Isabella Carrington; had five sons.
12. Thurstan, eldest son of Richard and Isabella, married Joan Arderne; had three sons.
13. Sir Richard, third son of Thurstan and Joan, married first, Anne Fitton; had three sons; married second, Eleanor Harbottle; by her had three sons.
14. Edward, eldest son of Sir Richard and Anne Fitton, married first, Cecily Langley, a widow, no children; married second, Jane Carrington; had four sons.
15. Edward, second son of Edward and Jane Carrington, succeeded his father and assumed the honors and estates of the family, married March 1595, Anne Brock, a widow, and by her had six sons: Edward, Richard, John, Thomas, Henry and William.
16. Edward, eldest son of Edward and Anne Brock, married Hannah Boyce in Henrico Co., Virginia.

**NOTE:** The members of each family are listed in order of birth, the eldest first, where birth dates are known.

Where birth dates are not known, they are numbered for convenience in tracing.

Should you desire to trace your ancestors, use the following simple method.

As an example, suppose your name is John Doe, and your father, GEORGE DOE. He is your nearest ancestor. So from the Index get the page number on which your father is listed. There you will find that he was the child of JAMES DOE; continue your search upward until you come to James Doe and you will find that he was a child of HENRY DOE; continue upward until you come to Henry Doe, and you will find that he was a child of DAVID DOE; continue until you come to David Doe and you will find that he was a child of SAMUEL DOE, your 3rd great grandfather.

Now you have listed FIVE generations back of you carrying your line back to your 3rd great grandfather. Your generation will be the 6th; your children, the 7th, and your grandchildren the 8th generation.

So your Ancestral Line forms like this:

- 1 SAMUEL DOE, your 3rd Great Grandfather
- 2 DAVID DOE, " 2nd " "
- 3 HENRY DOE, " 1st " "
- 4 JAMES DOE, Your Grandfather
- 5 GEORGE DOE, Your Father

You can continue your family records for several generations on the forms shown on pages 86 to 88 in this book.

#### ROMAN NUMERALS—HOW TO READ THEM

I, one	VI, six	The Roman numeral I, when it stands alone, is number one; when it is placed before another numeral it subtracts one; when it is placed after another numeral it adds one.
II, two	VII, seven	
III, three	VIII, eight	
IV, four	IX, nine	
V, five	X, ten	
L, fifty		The Roman numeral X, when it stands alone, is number ten; when it is placed before another numeral it subtracts ten; when it is placed after another numeral it adds ten.
C, one hundred		
D, five hundred		
M, one thousand		

Suppose you should write 1953 in Roman numerals. Always the largest number is written first, and the smaller numbers in sequence. In this case the largest number is one thousand which is M. The next largest number is 900 which is CM. The third largest number is 50, which is L. The last number is 3 which is III. Hence 1953 is written MCMLIII.

Suppose you see on a gravestone the letters MDCLXXXV, you would say: M is 1000, D is 500, C is 100, so DC is 600, L is 50 and three XXX's are 30, so LXXX is 80. Since V is five, MDCLXXXV is 1685.

Suppose the letters you write down are MDCCCXXXVI. M is 1000, D is 500, CCC is 300, XXX is 30, VI is 6, 1836

**APPROXIMATE DATES.** Very often you find one among your relatives whose birth date you do not have and may not be able to find. In order to place such a one in relation to other names you have it is advisable to use an approximate date of birth. Statistics have been gathered from thousands of families in various countries and the following figures represent the average of the whole group.

The average of fathers at the birth of the first child is 26 years; and of the mother it is 22 years. If you have the birth date of only one child and you do not know which child it is (first or a later one), the average age of the father will be 32 years. Remember that these figures are averages only, and will be wrong much more often than they will be right. Count the approximate age at marriage at 25 years for the men, 22 years for the women. If you have the death date, you cannot approximate the birth date from that. Approximate dates should be marked "about".

**RELATIONSHIP TABLE.** The parents of your father and mother are your grandfather and grandmother, and you are a grandson or granddaughter to them.

The parents of your grandfather and grandmother are your great grandfather and great grandmother, and you are a great grandson or or a great granddaughter to them.

The parents of your great grandfather and great grandmother are your second great grandfather or second great grandmother, and you are second great grandson or great granddaughter to them.

The children of your brothers and sisters are your nephews or nieces, and you are uncle or aunt to them.

The children of your nephews or nieces are your grand nephews or grand nieces, and you are grand uncle or grand aunt to them.

The children of your grand nephews or grand nieces are your great grand nephews or great grand nieces, and you are great grand uncle or great grand aunt to them.

The children of your great grand nephews or great grandnieces are your second great grand nephews or your second great grand nieces, and you are second great grand uncle or second great grand aunt to them.

Your father's brother or sister is your uncle or aunt, and you are nephew or niece to them.

Your grandfather's brother or sister is your grand uncle or grand aunt, and you are grand nephew or grand niece to them.

Your great grandfather's brother or sister is your great grand uncle or great grand aunt, and you are great grand nephew or great grand niece to them.

Your second great grandfather's brother or sister is your second great grand uncle or second great grand aunt, and you are second great grand nephew or second great grand niece to them.

[illegible]

GENERATIONS COME AND GO—faster than you think. What has the "ravages of time" done to your branch of the family tree? Study the chart below which is an ACTUAL RECORD of one man's line from father-to-son, for six generations. It shows the total number of persons in one family of each generation, the number that died, and number still living.

GENERATIONS	No.	You, Spouse Children	Died	Still Living
3rd Great Grandfather	1	4	4	0
2nd Great Grandfather	2	11	11	0
1st Great Grandfather	3	17	17	0
Your Grandfather	4	11	7	4
Your Father	5	5	1	4
You, Spouse, Children	6	3	0	3
Totals		51	40	11

HOW MANY GENERATIONS of your family are still living? Fill in the blank form below, assuming that you, your spouse and children are No. 6; the same for your father as No. 5; and on up to your 3rd Great Grandfather; then total each column and compare with table above.
