DESCENDANTS OF THOMAS SCOTT

In the pages following, there are included all the data obtainable on the descendants of our ancestors Thomas Scott and his wife Violet Hayes. Thomas was the second son of John Scott and his wife Isabel Adams, and family tradition indicates that Thomas was born either on shipboard while his parents were enroute to the United States from Ireland in 1794 or was born shortly thereafter. Our immigrant ancestors, John and Isabel, settled first in Washington Co., Pennsylvania, moved later to Muskingum Co., Ohio and still later to Coshocton Co., Ohio. The "Old Scott Farm", located approximately one mile west and one-fourth mile north of New Guilford, Ohio includes the original family burying ground, the only stones still standing being those of the two immigrant pioneers John Scott and his wife Isabel Adams. On page 21 is given all known data on the brothers of Thomas Scott; efforts to contact their descendants have as yet been unsuccessful.

It is regretted that this Record undoubtedly contains errors and omissions. The compiler will appreciate receiving corrections and additions to be included in a possible later second edition.

The numbering system is designed to permit ready identification of each descendant. The first known ancestor, John Scott, has been given the number "1". His second child, Thomas, is identified by adding a "2" after the "1". The first child of #12 therefore is #121, the second child is #122, etc. (Decimals have been inserted for a 10th, 11th, etc., child; #12.10.2 is the 2d child of #12.10, who was the 10th child of #12.)

The initial distribution of this record is made without charge. Because unlimited distribution is not feasible, a charge of one dollar per copy will be made for additional copies.
