*A SHORT PRELIMINARY PEDIGREE*

## INTRODUCTION.

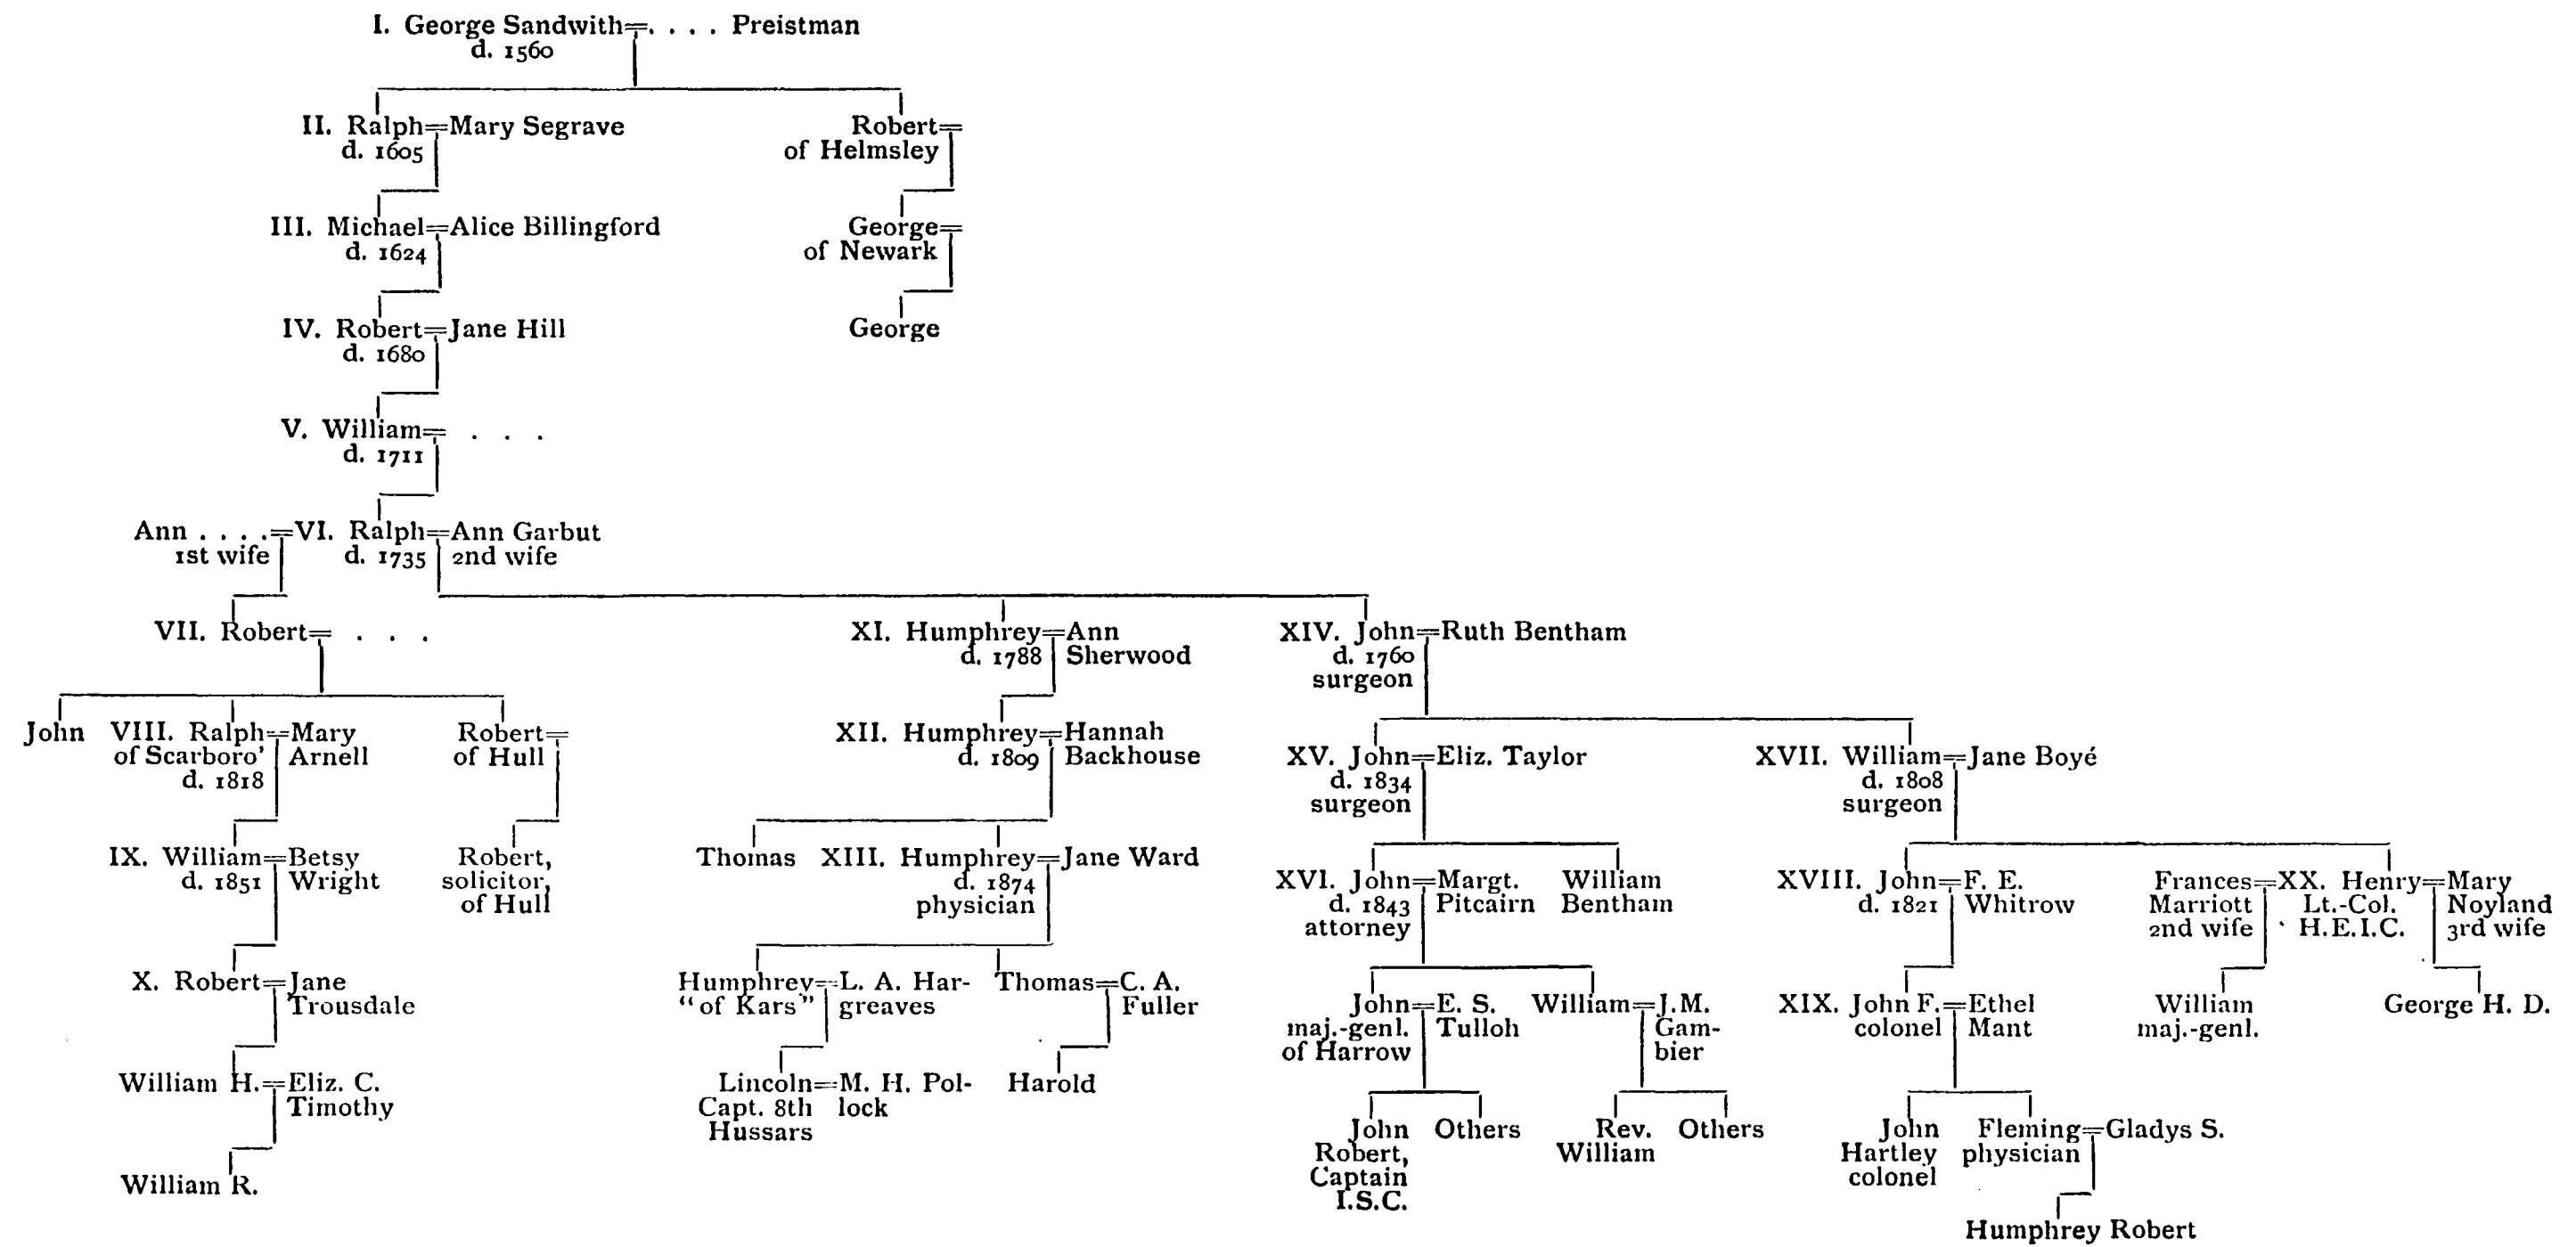

---

The following pedigree does not pretend to be in any way a family history. It has been printed in order to place beyond the reach of loss by fire or other cause a large mass of genealogical facts that represent many years of labour and research.

The compiler hopes that in the future he will be able to print a regular family history, including all the families of the name of Sandwith that have existed at various times in various counties. Some of these were undoubtedly akin to the family whose pedigree is here recorded, but whether the "missing links" that bind them together will ever be found is a question that the future alone can reveal.
