FOREWORD

THE VAN VOORHEES ASSOCIATION was organized on January 16, 1932, primarily to commemorate in 1935 the 275th anniversary of the coming to New Netherlands of Steven Coerte Van Voorhees and his family, and their settlement on Long Island at Amersfoort, now Flatlands, Brooklyn, New York. Temporary officers were then chosen and eight members of the family accepted membership on a central committee. Permanent officers were elected on May 21.

Representatives of the Van Voorhees family, some of them in the eleventh and twelfth generations, are living in many states of the Union. The interest of all who bear the name of Voorhees, however they may spell it, is earnestly desired. That they may trace their line of descent from our common ancestor, this Condensed Genealogy has been prepared. For the facts given we are indebted to a GENEALOGY OF THE VAN VOORHEES FAMILY, prepared by Mr. Elias W. Voorhis, and published in 1888. As this monumental work of 725 pages is not readily accessible, this Condensed Genealogy is offered to aid those who are interested. It is so arranged that those who have some knowledge of their immediate forbears may trace their ancestral lines and learn their degree of relationship to other members of the family.

The officers of the Association are well aware that Mr. Elias W. Van Voorhis did not find it possible to trace all the family lines, nor is his work free from errors. They understand that since it was published much additional information has been secured respecting omitted lines. Those who have data are requested to forward it that all lines so far as is now possible may be completed and errors corrected.

To bring the material available within reasonable compass, the names of mothers and sisters have for the most part been omitted. Where a line ends because no sons are known, we are not to gather that there were no descendants through daughters. Names of wives are given to enable those of the present generation to learn the more readily their own line of descent. The omission of many dates does not lessen the value of the genealogy for our present purpose. Any purchaser of a copy, who will forward sufficient information respecting his line of descent to connect him with one of the many families herein traced, is entitled to a chart giving his ancestral line from Steven Coerte Van Voorhees, with all dates so far as they are given in THE GENEALOGY OF THE VAN VOORHEES FAMILY.

The officers of the Association invite correspondence, and are ready to aid all who are interested to trace with accuracy their ancestral lines. Thus they hope to encourage a wide interest in the forthcoming celebration, and some participation in it, not only by all who bear the Voorhees name, but also by many who are related through collateral lines.

INDEX

The descendants of STEVEN COERTE VAN VOORHEES are here listed to the fifth generation. His five sons are lettered A, B, C, D and E, their twenty-six sons are numbered consecutively, and their sons in turn are lettered a, b, c, etc. One hundred and ninety-six great-great grandsons follow in order. This work contains the names of more than 2,000 men and 1,100 women.

A CONDENSED GENEAOLOGY

of the

VAN VOORHEES FAMILY

Lines of Descent from

STEVEN COERTE VAN VOORHEES

THE PLAN

In this Condensed Genealogy family lines are arranged under the names of the twenty-six grandsons, sons of our ancestor's five sons—A, Coert Stevense; B, Lucas Stevense; C, Jan Stevense; D, Albert Stevense; and E, Abraham Stevense.

The Roman numerals following the names of these twenty-six grandsons are those assigned to them in the Genealogy. The numbers omitted were assigned to granddaughters.

The eighty great-grandsons, who are in the fourth generation, follow in order, numbered a, b, c, etc., under the names of their respective parents.

In the fifth generation there were 196 great-great-grandsons. From this generation on given names only appear, arranged in numbered columns. The names of many wives, and also available dates, are omitted, partly for the sake of brevity, and partly because they were not all known to Mr. Van Voorhis. The names of wives that are given should be of help to members of the present generation in tracing their own ancestral lines.

In numerous cases where male lines end there were descendants through daughters. In other cases Mr. Van Voorhis was unable to secure the desired information. Sons who died in infancy, and others who did not marry, are generally omitted. Their names should appear in a complete genealogy.

While much care has been taken to secure accuracy, many errors will no doubt be found. Corrections will be welcomed.
