

***THE  
JACOB WEDEL  
FAMILY  
RECORD***

***1825 - 1971***

## FOREWORD

In 1956 while our boys were attending Bethel College our son, Kenneth Wedel, presented a Genealogy Paper on the descendents of grandfather Jacob Wedel, to the Department of Bible, Bethel College, in partial fulfillment of the requirements for the Course in Mennonite History under Dr. Cornelius Krahn. Kenneth had the assistance of Dr. Arnold Wedel, Professor at the College, who is also a part of this family, and who was very much interested in having a Jacob Wedel genealogy book printed at that time. However, due to lack of more complete information this did not materialize.

In 1969 Dr. Jacob D. Goering, Professor at Maryland University, began a personal study of the 73 Mennonite families who came to America from Russia on the ship, "The City of Richmond", in 1874 of which 63 families settled in McPherson County, Kansas. He was interested to know just what happens to a people during a period of one hundred years. It was our assignment to get together information on the Jacob Wedel descendants for this project. Being interested in family history and for future generations to know something about the history of the Jacob Wedel family some of us felt it necessary and important to have a genealogy book printed. This was discussed with various families and it was generally agreed that now was the time to do it.

As you well know an undertaking such as this takes much time and effort and would be impossible without the cooperation and help of many people. We wish to express our sincere thanks and appreciation to all who have given of their time and effort in gathering and submitting the necessary information. We know this record is not complete. Quite a bit of information is missing and no doubt there will be mistakes for which we apologize, but we tried our best with the information made available to us. A special thank you to Eldeen Stucky for helping with the typing in getting the material ready for the printer.

Arthur A. and Elizabeth K. (Goering) Wedel

**THE JACOB AND KATARINA GERING WEDEL  
FAMILY RECORD 1825 — 1971  
ANCESTRAL HISTORY**

As some of you know there are differing views as to our ancestral Wedel history. Our findings will be recorded here and readers will draw their own conclusions. Our sources of information are as follows: "European History of the Swiss-Volhynian Mennonites", by Martin Schrag, 1956, Bethel College Historical Library; The Goering Genealogy Book, beginning with Moses Gering, 1790-1940; "Alexanderwohl and Tabor: From Holland to America", by Isaac Fast and Maria Becker; and The Peter H. Wedel Genealogy Book by Helmut J. Wedel, 1859-1964.

The following is one version of the origin of the name Wedel:

"The name Wedel is a title of nobility and comes from Holland. Around the year 1660 a certain Peter Ratzlaff lived in Holland. He was a rich man. He bought quite a large piece of land with many stony mountains and between these mountains also some good land. One of these hills had a large even plain top. He decided to build his residence on top of this hill with all his rooms and other buildings. He had three children, Benjamin, Jakob and Peter. There was no lack of stones, and so these were hauled to the building site and everything was made of stone. When the buildings were ready, he made a high, thick wall around all of these and put in an iron gate. He was still not satisfied, so he gave a gift of money to the government of Holland. In Holland it was customary if someone gave a gift of money to the government, he received a name of nobility, and so the government of Holland granted him the nobility name Wedel.

From this time Peter Ratzlaff's name was Peter Ratzlaff Wedel. After the parents died the three brothers lived in this castle. These left out the name Ratzlaff entirely and thus were Benjamin, Jakob and Peter Wedel. In 1690 it seemed as if Holland would enter war with France. Holland prepared for war, chased these three brothers from their castle, and put catapults around the wall. There were no other cannon yet. Benjamin Wedel went to Switzerland, and it seems he never married. Jakob Wedel went to Poland. The Wedels near Canton are all descendants of Jakob Wedel. Peter Wedel stayed in Holland, and when his uncle Bernhard Ratzlaff started the church in 1700, he joined. The elders by the name Wedel in this church are all descendants of this Peter Wedel. From this time, namely, 1700, the records are in the church register." (Written in 1939 by Mrs. Isaac Fast, who was a daughter of Peter Wedel, the elected leader to Russia). (The above is taken from the book, "Alexanderwohl — Tabor: From Holland to America" by Isaac Fast and Marie Becker, translated by Augusta Schmidt.)

The Wedels were not of Swiss origin. The first time the Wedel name is mentioned in the Swiss Mennonite group is in Michalin, Russia. A certain Count Wedel, leader of the Michalin group, went to St. Petersburg to defend the Mennonites before the Government. In 1821 in Edwardsdorf Johann Wedel from Ostrog married into the group. Who his parents were is not known. This was great-grandfather Johann Wedel who married Elisabeth Waltner on May 8, 1821. They had one daughter and the mother and daughter both died in 1823. Later in 1823 great-grandfather Johann Wedel married Anna (Gering) Schrag, a widow, the third child of Moses Gering. It is believed she was born in 1792. We are descendants of this marriage of Johann Wedel and his second wife Anna. They had 7 children, only 3 of whom lived — namely, Jacob, Katharina and John. Whether or not great-grandfather Johann Wedel was a descendant of the Wedels mentioned earlier in the report by Mrs. Isaac Fast is not sure. Some say yes and some say no, but there is a possibility that such may be the case.

Grandfather Jacob Wedel was born in Russia in 1825. Grandmother Katarina Gering was born in 1827. They were married in 1844.

The name Jacob Wedel was listed as one of three Town Directors. Also a committee was organized composed of Jacob Wedel, Andreas Gering, and one, Mr. Foss, to

secure passports. Foss was a sympathetic Lutheran, versed in the Russian language and ways.

Jacob Wedel and his wife Katarina with their family and other families left Russia when religious freedom was no longer granted and came to America to the prairies of McPherson County in Kansas in the year 1874. They were members of the Elder Jacob Stucky and Rev. Jacob D. Goering Congregation. They homesteaded on section 25 of Turkey Creek Township in McPherson County and to this day this is known as the Wedel section and is still farmed by some of their grandchildren and great-grandchildren.

May God help us never to forget His faithfulness to our forefathers and also their faithfulness and willingness to sacrifice for conscience sake, for the sake of their children, and their children's children. Would we be willing to do the same?

Following is the closing paragraph taken from Rev. P. P. Wedel's book, "Kurze Geschichte der aus Wolhynien, Ruszland nach Kansas Ausgewanderten Schweizer-Mennoniten", 1929, and translated by Mr. and Mrs. Benj. B. J. Goering in 1960. Quote: "Will we be as faithful in the use of our opportunities, possibilities, preparations, etc., as our forefathers were? Will we render more than they did, since we have greater possibilities? Should we not remind ourselves to return to the faith, the sufficiency, to the uprightness and honesty of our ancestors? They also had their weaknesses. They were not angels either, but we have much to learn from them. To follow them in their good deeds would surely be a blessing for us. They built well. They stood on the rock, Jesus Christ. On this rock we want to continue. We want to show ourselves worthy of our forefathers. We should put forth every effort to live to glorify our God and strive for the salvation of our fellowman. We thank God for all He did for our people. He will continue to help us also, if we remain faithful. Him and Him only will we trust, who has bought us through the death of Christ on the cross."
