Some Records Prior to 1700

of

WHITE

of

**Bedfordshire, Buckinghamshire, Hertfordshire, Huntingdonshire
and a few of Other English Shires with Incidental Records
of More than 80 Other Families, Specially Indexed**

In 1934, when in London, I had the pleasure of meeting Miss Lilian J. Redstone, the well known authority on East Anglian History and an experienced worker upon Records, who very kindly undertook to locate records of the ancestors of John White of Hulcote, Bedfordshire, who died in 1501. Later finding that her other engagements would prevent her giving sufficient attention to this subject, she recommended Miss Marian K. Dale, of London, who kindly consented to undertake the work, and Miss Redstone has continued to advise and help as far as possible.

Miss Dale sent me many copies of English records between 1934 and 1938, and since then I have had my secretaries put them in chronological order. They are here listed, partly for my own use, and partly for the use of others, and also because in some few cases the bombing of England might have destroyed some of the original records.

In order to save space, as well as for the sake of distinctness in printing, an abbreviation list of the records has been used, but the index thereof contains full data. A number of errors will doubtless have crept in, although the printer's proof has been carefully compared by me with the original copies of the records received from England.

The letters and reports received from Miss Redstone and Miss Dale, together with copies of my correspondence with them, have been bound in book form which has had stamped on its back "White Family Papers, Vol. I, Redstone and Dale Reports 1934-1940." This book I shall put on deposit with the Historical Society of Pennsylvania, at 1300 Locust Street, Philadelphia. The numbers on the extreme right of the printed records refer to the page numbers in the above referred to book, and of course are of value only to those who can inspect said book. The information given under each date has been reduced by me to the minimum and is suggestive only. To have printed the full data of each record would have made too large a volume. From some records we have no information beyond the existence of the name.

For further information about John White of Hulcote, Bedfordshire, d. 1501, and his descendants, see "Account of the Meeting of the Descendants of Col. Thomas White of Maryland" printed for private distribution in Philadelphia in 1879. On page 83 thereof is Col. Joseph Lemuel Chester's Article on the English Ancestry. His work on the Register of Westminster Abbey was appropriately commended by Queen Victoria. The book "Account of the Meeting of the Descendants of Col. Thomas White of Maryland" is to be found in many Libraries in this Country and some Libraries in England. The privately printed edition of 1879 has long since been distributed.

The method of spelling the name "White" in the 13th, 14th and 15th Centuries was at the mercy of each writer. It varied from Albus to Vyt, and from the copies of English records sent me some 35 different forms have been used. These include some ambiguous examples, nearly approaching the word "White", which were taken to guard against clerical error or divergences in local pronunciation in the originals.

In the printing of the records I have modernized both the spelling of "White" as well as the names of the towns which likewise varied in spelling from century to century.

Doubtless some few of the printed records may not be "White" records, but of some other family. Almost all of the records printed herein were sent me from England. Some few I obtained from the Victoria County Histories or other authoritative sources, which are listed. I have also included about sixty names spelt in a similar way to those in the above listed variations of "White" which were taken from the Suffolk Green Book No. 18 covering 1309 and 1332 Bedfordshire subsidies. It is due Miss Redstone and Miss Dale to add that I alone am responsible for the inclusion of all doubtful names.

This work could never have been completed without the assistance of my former Secretary, Mrs. Charles T. Smith, who did all of the preliminary work of chronological arrangement.

WILLIAM WHITE

INDEX

In a few cases the abbreviations given opposite the above printed records do not accord exactly with those listed under "Abbreviations" on page 2. They are, however, so nearly alike there should be no difficulty in locating the record. These errors (such as "Beds" for "Bed") cannot be properly corrected without returning the proof to England, which is impractical. As there were more than 250 Records of "John White" alone, a chronological grouping by pages had to be used.

In order to facilitate the finding of any particular name, the Index is divided into two parts:

Index A. For the surname White only.

Index B. For all other surnames than "White".

In Index A, the Shire, date and page number are given and when there are several Records on the same page of the same Christian or first name, the inclusive dates and the number of such Records are also specified. In such cases "4R" means there are 4 records for that name on that page.

In the spelling of the same Christian or first name a different letter of the alphabet is sometimes used, such as "Catherine" and "Katherine". In this Index I have used only the most modern spelling. Hence "Alys" will be included under "Alice", "Ann" or "Anne" under "Anne", "Crystiana" under "Christiana", "Margery" or "Maggie" under Margaret", and likewise with other Christian or first names. Such titles as "Knight", "Sir", "Sr.", "Jr.", and "le" or "la" before "White" have been omitted from the Index.

Index B includes all other surnames than White, and the page number is given with such additional matter as may be helpful to promptly find the record.

INDEX A

THE SURNAME WHITE ONLY
