

WASSONS OF U. S. A.
1938 - 1939

COPYRIGHT 1943 by W. A. WASSON

Preface.

The copy of card below re the 1790 Census of N. Carolina was the starting point, at first I sent out some letters thinking they would bring answers telling me the whole story. I soon ran out of addresses so was given permission to use the A. T. T. Co's Directory Library in N. Y. City with the result I looked over every state and some of the Canadian as well as some of the British Isles and Australia. The answer to the main objective is still a question. One of those few Wassons was my G.G. Father Joseph (1744-1822) who settled in Wayne Co. Indiana in 1806 with all his children seven boys and two girls (all born in N. Car. 1773-1797.) Hence my interest. Up to 1936 I took no interest in family interest of genealogy - but a letter I wrote to a distant relative on a promise to do so I made to a relative on my wife's side was the instigation. With this booklet the result, so in a way I owe a vote of thanks to the present day descendants of David 1780, Fleming 1807, in the person of Mrs. N. B. Berry and her mother Emma Wasson Parsons, both

now living at Columbus Ohio. I mention these names for, if it had not been for them I doubt if any of Wayne Co. Ind. would have had such data as we have. Fleming in particular took a lot of interest and was followed by his son George and daughters Louise, Francis and Emma who kept alive & reinterest. George an Atty. of Denver Colo. has a loose leaf typed history right up to date of our Joseph (1744-1822) and his 9 children and their descendants. Mrs. Berry & I have copies also.

New York City

111 Broadway, 7th Floor

If you have, or know of others having, any data re the early pioneer families of the Wasson's below, please advise.

EZRA WASSON, born No. Carolina 1787 (descendants 1st and 2nd marriage) 8 children of 2nd marriage listed in 1850 Census of Delaware County, Ind. The No. Carolina Census of 1790 lists John of Rowan County, James, Joseph, Robert, Samuel, of Iredell County, Mary, a taxpayer in Rowan County 1778 and Jane who married in 1764 (Of what families?).

Any Data or historical references appreciated—your branch data also.

New Jersey (By way 1866) Newark N.J. The mention of "Anc. Wayne Co Ind^a"
 in numerous places is based on
 Joseph H (1744-1822) who in 1806 settled
 in eastern part of Wayne Co Ind.
 It seems other pioneer Hassons to Ind^a
 territory settled in other sections of
 eastern Ind^a & that the family of
 Joseph is the only Wayne Co Ind^a

While on the Wason or Wasson subject, I have a letter from a Wasson living in County
Antrim Ire. who says at one time Wassons owned many fields (farms) in and around
Ballymena, Co. Antrim, but none now. In 1927 a lady visited a home right next to
a Presbyterian church in Ballymena, I have tried to ascertain how this family
spelled their name for the visitor spelled it with one S. in her account.
The earliest Wasson I have heard of in the U.S. or near by is one Edward W.
who was in The Barbados in 1678. a Thos Wason (some data says or Wasson) born
Ballymena 1701 came to Am. in 1718. His brother James born 1711. Came in 1729.
Both later settled in N. Hampshire. No data where they first landed or settled.

 States of Kynty, Mo., N.Y., Ills., Miss., Penn^a hold reunions all more
 or less local. States like Iowa, Calif., Texas and Okla should organize
 in fact there should be an organized effort as a national one.

- Final. Just where my accumulation of letters, data etc., will land after
 I pass from the picture is a question. Under ordinary situa-
 tions the logical place would be with my own children, next would be
 Minor H. of Denver Colo, Mrs Berry of Colo. But of 3 children one only
 of mine has children viz: Mrs Emogene H. Tyler of Newark N.J. one girl
 Mrs Heneda Martine of E. Orange N.J. and a son Cutler H. Tyler who in
 U.S. Army. Minor H. a bachelor, Mrs Berry has no children. so I would
 suggest later generations send their inquiries to my grand children
 or descendants who I hope will help carry on or at least know who
 proper parties to send to for data etc. Wally 4/1/43
