## Introduction

As you are probably aware the 1880 Federal Censuses have been indexed by the National Archives.

"The index, however, is not to every name in the census schedules, but only to those entries for households in which there was a child, or children, aged 10 or under. The cards give the names, ages, and birth places of all members of such households; and there is a separate cross-reference card for each child aged 10 or under whose surname is different from that of the head of the household in which he is listed."

Federal Population Censuses, 1790-1890, National Archives and Records Service, Washington, D.C., 1966, p 122.

Thus, there is an unknown number of Whiteside(s) names not enumerated. Hence, the total of Whiteside(s) names (2,377) is a minimum figure. I would guess, however, that the maximum figure would not be above 2,500.

In this report I have listed all the names found in the 1880 Soundex Index except for the 8 States for which I have already reported the census data and the 3 States for which reports are in final stages of preparation.

Only 60 copies of this report were distributed. Therefore, when you are through with the material and if you no longer want to use it, please deposit your copy with your local Library or Historical Society so that others, in years to come, may also use it.

Finally, all Negro and Mullatto Whiteside (s) names are omitted from this report although the information has been collected.

## 1880 Census, Soundex Index

Alabama: Report on censuses from Alabama, 1830-1880 is being prepared by Foster Clay Whiteside.

Arizona: Sheet # Township

Pima County:
