Introduction

The Introduction in my previous report on Military Records (July 4, 1969) needs only one major addition, really, a major correction. In the previous report I ignored the name listed in the original file listing, that is, where a person was listed in the Index by one name but with the notation that the original file was listed under another. I assumed the listing that was labeled "original" was the error. It appears that this is not correct. The record is listed, the original record, under the correct name.

For example, on page 4 of that report (11th name down) I listed the name as Thompson when it should have been listed as Thomas. Thus, all the names in that report should be rechecked (where necessary) and corrected.

Only 50 copies of this report were distributed. Again, appreciation is extended to Mrs. Peter Heppen who greatly assisted in this project.
