at Washington.

PREFACE.

Residents of Morris County, and particularly our Business men, have for many years felt the need of a Morris "County" Directory, and none more so than the Publishers of this work. There has never been a publication of this character, although there have been many bearing the name, and it has been the aim of the Publishers to cover every foot of the County—in other words to collate a Complete Morris County Business and Residence Guide—a "Directory that directs."

Besides the thousands (about 15,000) of individual names of which there are no *repetitions*, a Directory of Municipal, Township and County Officers, Churches, Lodges and Societies, Clubs, &c., will be found, together with an up-to-date colored map of the County.

Appreciating from personal experience the desirability of a County Directory the Publishers announce that it will be issued annually, and if possible improved upon from year to year, and this first work of its character is presented to the consideration of the Public with the knowledge that it will have the cordial reception it merits.

Assuring our patrons of the faithful work the book represents, and believing it will satisfactorily "fill a long felt want," the Public for the support already given the project has the sincere thanks of

THE PUBLISHERS.

Morristown Water Works.

INCORPORATED IN 1799 UNDER THE NAME OF

"The Proprietors of the Morris Aqueduct."

OFFICERS:

HENRY C. PITNEY, President. WILLIAM A. DUNN, Superintendent.
PHIL B. PIERSON, Sec'y & Treas. FREDERIC V. PITNEY, Civil Engineer.

THE WATER supplied by this Company is brought from the hills lying to the West of Morristown, some of it a distance of six miles. The water is gathered from nearly one hundred separate perennial mountain springs, rising in nine different valleys, and is conveyed from the springs by means of an extensive system of under-drains to collecting basins. These collecting basins, with one exception, are of small capacity; it being the policy of the Company to supply water fresh from the springs rather than water that has been stored for any length of time in impounding reservoirs. In every case, the water is thoroughly aerated--either naturally or artificially--before entering the mains that supply the town.

The sources of supply are thoroughly protected from any possibility of pollution or contamination, and special care is exercised to exclude road wash and the drainage from cultivated fields. The Company owns over three hundred acres of uncultivated land, upon which the greater part of its water rises, the remainder of the collecting area being under its immediate control.

In addition to these sources of supply, the Company owns the well-known "Sand Spring," situated nearly three miles southwest of Morristown, from which water is pumped during the dry season, when the consumption of water is greatest and the flow from the mountain springs is least

The waters supplied by this Company have been frequently subjected to chemical and microscopic analyses. The results reveal, in every case, water of remarkable softness and purity.

I have known Dr. S. R. Osmun for many years, and carry in my own person the marks of his skillful workmanship. I regard him as an accurate and conscientious artizan, a careful and reliable scholar in the profession to which he has devoted his life. Never boastful, his work praises him. Whatever he affirms, without hesitation concerning dental science, may be accepted with fullest confidence.

I have known Dr. S. R. Osmun for many years, and carry in my own person the marks of his skillful workmanship. I regard him as an accurate and conscientious artizan, a careful and reliable scholer in the profession to which he has devoted his life. Never boastful, his work praises him. Whatever he affirms, without hesitation concerning dental science, may be accepted with fullest confidence.

I have known Dr. S. R. Osmun for many years, and carry in my own person the marks of his skilful workmanship. I regard him as an accurate and conscientious artizan, a careful and reliable scholar in the profession to which he has devoted his life. Never boastful, his work praises him. Whatever he affirms, without hesitation concerning dental science, may be accepted with fullest confidence.

S. R. OSMUN, DENTIST, MORRISTOWN, - - - NEW JERSEY.

Having known Dr. S. R. Osmun for a number of years, and he having professionally attended my family, as well as myself, it affords me pleasure to testify to his professional ability, as I regard him among the very best dentists whom I have known or been brought in contact with. I feel confident that any one being treated by him will feel that they are in the hands of a master workman that will give them full satisfaction. I know of none that I would sooner employ.

S. R. OSMUN, DENTIST, MORRISTOWN, - - - NEW JERSEY.

Having known Dr. S. R. Osmun for a number of years, and he having professionally attended my family, as well as myself, it affords me pleasure to testify to his professional ability, as I regard him among the very best dentists whom I have known or been brought in contact with. I feel confident that any one being treated by him will feel that they are in the hands of a master workman that will give them full satisfaction. I know of none that I would sooner employ.

. . . DENTIST, . . .
Morristown, New Jersey.

Though I cannot speak understandingly of the Eureka, I can and do say to any whom it may concern that in Doctor Osmun I have found, after years of intimate acquaintance, a worthy and reliable man, and one who is highly skilled in his profession of Dentistry. His assurance of the merit of the Eureka would be sufficient for me.

Though I cannot speak understandingly of the Eureka, I can and do say to any whom it may concern that in Doctor Osmun I have found, after years of intimate acquaintance, a worthy and reliable man, and one who is highly skilled in his profession of Dentistry. His assurance of the merit of the Eureka would be sufficient for me.

MORRISTOWN, - - - NEW JERSEY.

Having known Dr. S. R. Osmun for a number of years, and he having professionally attended my family, as well as myself, it affords me pleasure to testify to his professional ability, as I regard him among the very best dentists whom I have known or been brought in contact with. I feel confident that any one being treated by him will feel that they are in the hands of a master workman that will give them full satisfaction. I know of none that I would sooner employ.

S. R. OSMUN, DENTIST,
MORRISTOWN, . . . NEW JERSEY.

Having known Dr. S. R. Osmun for a number of years, and he having professionally attended my family, as well as myself, it affords me pleasure to testify to his professional ability, as I regard him among the very best dentists whom I have known or been brought in contact with. I feel confident that any one being treated by him will feel that they are in the hands of a master workman that will give them full satisfaction. I know of none that I would sooner employ.

I have known Dr. S. R. Osmun for many years, and carry in my own person the marks of his skilful workmanship. I regard him as an accurate and conscientious artizan, a careful and reliable scholar in the profession to which he has devoted his life. Never boastful, his work praises him. Whatever he affirms, without hesitation concerning dental science, may be accepted with fullest confidence.

I have known Dr. S. R. Osmun for many years, and carry in my own person the marks of his skillful workmanship. I regard him as an accurate and conscientious artizan, a careful and reliable scholar in the profession to which he has devoted his life. Never boastful, his work praises him. Whatever he affirms, without hesitation concerning dental science, may be accepted with fullest confidence.

Though I cannot speak understandingly of the Eureka, I can and do say to any whom it may concern that in Doctor Osmun I have found, after years of intimate acquaintance, a worthy and reliable man, and one who is highly skilled in his profession of Dentistry. His assurance of the merit of the Eureka would be sufficient for me.

NEWARK, N. J., April 2nd, 1894.
I have known Dr. S. R. Osmun for many years, and carry in my own person the marks of his skillful workmanship. I regard him as an accurate and conscientious artizan, a careful and reliable scholar in the profession to which he has devoted his life. Never boastful, his work praises him. Whatever he affirms, without hesitation concerning dental science, may be accepted with fullest confidence.
A. H. TUTTLE.

S. R. OSMUN, DENTIST, MORRISTOWN, - - - NEW JERSEY.

Having known Dr. S. R. Osmun for a number of years, and he having professionally attended my family, as well as myself, it affords me pleasure to testify to his professional ability, as I regard him among the very best dentists whom I have known or been brought in contact with. I feel confident that any one being treated by him will feel that they are in the hands of a master workman that will give them full satisfaction. I know of none that I would sooner employ.

Though I cannot speak understandingly of the Eureka, I can and do say to any whom it may concern that in Doctor Osmun I have found, after years of intimate acquaintance, a worthy and reliable man, and one who is highly skilled in his profession of Dentistry. His assurance of the merit of the Eureka would be sufficient for me.

S. R. OSMUN, DENTIST, MORRISTOWN, - - - NEW JERSEY.

Having known Dr. S. R. Osmun for a number of years, and he having professionally attended my family, as well as myself, it affords me pleasure to testify to his professional ability, as I regard him among the very best dentists whom I have known or been brought in contact with. I feel confident that any one being treated by him will feel that they are in the hands of a master workman that will give them full satisfaction. I know of none that I would sooner employ.

NEWARK, N. J., April 2nd, 1894.
I have known Dr. S. R. Osmun for many years, and carry in my own person the marks of his skillful workmanship. I regard him as an accurate and conscientious artizan, a careful and reliable scholar in the profession to which he has devoted his life. Never boastful, his work praises him. Whatever he affirms, without hesitation concerning dental science, may be accepted with fullest confidence.

Having known Dr. S. R. Osmun for a number of years, and he having professionally attended my family, as well as myself, it affords me pleasure to testify to his professional ability, as I regard him among the very best dentists whom I have known or been brought in contact with. I feel confident that any one being treated by him will feel that they are in the hands of a master workman that will give them full satisfaction. I know of none that I would sooner employ.

Having known Dr. S. R. Osmun for a number of years, and he having professionally attended my family, as well as myself, it affords me pleasure to testify to his professional ability, as I regard him among the very best dentists whom I have known or been brought in contact with. I feel confident that any one being treated by him will feel that they are in the hands of a master workman that will give them full satisfaction. I know of none that I would sooner employ. GEORGE J. Having known Dr. S. R. Osmun for a number of years, and he having professionally attended my family, as well as myself, it affords me pleasure to testify to his professional ability, as I regard him among the very best dentists whom I have known or been brought in contact with. I feel confident that any one being treated by him will feel that they are in the hands of a master workman that will give them full satisfaction. I know of none that I would sooner employ. GEORGE J. S. R. OSMUN, DENTIST, MORRISTOWN, NEW JERSEY.
Having known Dr. S. R. Osmun for a number of years, and he having professionally attended my family, as well as myself, it affords me pleasure to testify to his professional ability, as I regard him among the very best dentists whom I have known or been brought in contact with. I feel confident that any one being treated by him will feel that they are in the hands of a master workman that will give them full satisfaction. I know of none that I would sooner employ. GEORGE J. FERRY. Mendham, N. J., April 14th, 1894.

Though I cannot speak understandingly of the Eureka, I can and do say to any whom it may concern that in Doctor Osmun I have found, after years of intimate acquaintance, a worthy and reliable man, and one who is highly skilled in his profession of Dentistry. His assurance of the merit of the Eureka would be sufficient for me.

Though I cannot speak understandingly of the Eureka, I can and do say to any whom it may concern that in Doctor Osmun I have found, after years of intimate acquaintance, a worthy and reliable man, and one who is highly skilled in his profession of Dentistry. His assurance of the merit of the Eureka would be sufficient for me.

I have known Dr. S. R. Osmun for many years, and carry in my own person the marks of his skilful workmanship. I regard him as an accurate and conscientious artizan, a careful and reliable scholar in the profession to which he has devoted his life. Never boastful, his work praises him. Whatever he affirms, without hesitation concerning dental science, may be accepted with fullest confidence.

Though I cannot speak understandingly of the Eureka, I can and do say to any whom it may concern that in Doctor Osmun I have found, after years of intimate acquaintance, a worthy and reliable man, and one who is highly skilled in his profession of Dentistry. His assurance of the merit of the Eureka would be sufficient for me.

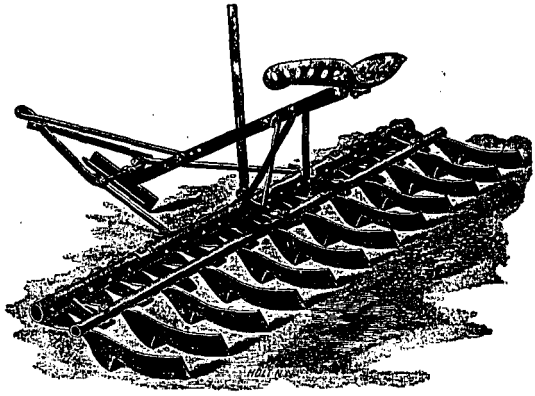
"ACME" Pulverizing Harrow, Clod Crusher, and Leveler,

Sizes 3 to 13½ Feet.



Agents Wanted.

Is Adapted to all Soils and all Work for Which a Harrow is Needed.

Flat crushing spurs pulverize lumps, level and smooth the ground, while at the same time curved coulters cultivate, cut, lift and turn the entire surface of the soil. The backward slant of the coulters prevents tearing up rubbish and reduces the draft.

Made entirely of cast steel and wrought iron and therefore **practically indestructible.**

Cheapest Riding Harrow on Earth—sells for about the same as an ordinary drag—**Eight Dollars** and upwards.

Sent on Trial { to responsible farmers to be returned at my expense if not satisfactory.

N. B.—I deliver free on board at convenient distributing points.

HEATERS.
R. C. Bartley & Co.,
Sole Manufacturers,
Bartley, New Jersey.

The Salmon is the best, the most durable, and safest. It stands on its own merits in economy, heating power, and durability.

To get the best results from coal consumed is by having large area of heating surface and keeping the boiler from the cold air, which is done with our Cast Iron Casing.

Correspondence solicited. No charge for estimates, and all inquiries promptly answered. We furnish all material for a complete plant.

Our Boilers are positively without packing, having no packed joints.

Having known Dr. S. R. Osmun for a number of years, and he having professionally attended my family, as well as myself, it affords me pleasure to testify to his professional ability, as I regard him among the very best dentists whom I have known or been brought in contact with. I feel confident that any one being treated by him will feel that they are in the hands of a master workman that will give them full satisfaction. I know of none that I would sooner employ.

Contractor & Builder. GEORGE A. MILLS, Res. 139 Washington Street. Mill Pine St., near depot. Telephone.

Having known Dr. S. R. Osmun for a number of years, and he having professionally attended my family, as well as myself, it affords me pleasure to testify to his professional ability, as I regard him among the very best dentists whom I have known or been brought in contact with. I feel confident that any one being treated by him will feel that they are in the hands of a master workman that will give them full satisfaction. I know of none that I would sooner employ. GEORGE J. Though I cannot speak understandingly of the Eureka, I can and do say to any whom it may concern that in Doctor Osmun I have found, after years of intimate acquaintance, a worthy and reliable man, and one who is highly skilled in his profession of Dentistry. His assurance of the merit of the Eureka would be sufficient for me.

NEWARK, N. J., April 2nd, 1894.
I have known Dr. S. R. Osmun for many years, and carry in my own person the marks of his skillful workmanship. I regard him as an accurate and conscientious artizan, a careful and reliable scholar in the profession to which he has devoted his life. Never boastful, his work praises him. Whatever he affirms, without hesitation concerning dental science, may be accepted with fullest confidence.
