PREFACE

The Wisconsin Historical Records Survey, under the National direction of Sargent B. Child, is engaged in a nation-wide survey of the records of State and local governmental units. This work was initiated in January 1936 as a part of the Federal Writers Project of the Works Progress Administration (title changed to Work Projects Administration on July 1, 1939). In Wisconsin the project began operation in February 1936 and on July 1, the present supervisor was appointed. In August 1936 the Survey became an independent part of Federal Project No. 1. Since September 1939 the Survey in Wisconsin has been a State-wide project sponsored by the University of Wisconsin and the State Historical Society of Wisconsin.

The objective of the Survey in Wisconsin has been the preparation of complete inventories of the records of the State offices, of county, city, and other local governmental units, of church records, of American imprints and newspapers, and of manuscript depositories and collections.

The Proceedings of the County Board of Supervisors of Crawford County, 1821-1850, is the only volume of the proceedings of this county that will be published. As the title suggests, Wisconsin Territorial Papers, County Series, this transcription will cover the records of the territorial period. However, in view of the fact that the system of county government was changed with the adoption of the Constitution, we have transcribed the records through the November session of the board in 1849. So that the records of this change are readily available, we have included the proceedings of the board for one year after statehood was attained.

The proceedings of the board are the minutes of the legislative, and to some extent the administrative body of the local governmental unit. They are extremely important records to anyone who wishes to study the development of local government in Wisconsin and every effort should be made to preserve them. The Proceedings of the County Board of Supervisors of Crawford County is the third county for which the transcription of the Territorial Papers have been completed. Due to press of time, we have not prepared an index for this volume.

In the transcription we did not keep the same pagination as that in the original. We show in the left-hand margin of our publication the page numbers of the original copy. Neither did we follow the tabulation or the paragraph indentation in the copy. In all other respects, spelling, punctuation, capitalization, etc., we have made an exact copy of the original.

The work of transcribing the copy was done by project field workers in Crawford County and the editorial work and stencil cutting were completed in the La Crosse office of the project under the immediate supervision of Mr. Gordon J. Smith.

The Survey acknowledges with appreciation the assistance and support of the State Director of Community Service Programs and the Chief of the Research and Records Programs of the Work Projects Administration in Wisconsin. The assistance given to us in editorial matters by the National office of the project is greatly appreciated.

At a special Meeting of the Commissioners held at Prairie du Chien on Friday the 9th day of January one thousand Eight hundred and Twenty four Present Joseph Rolette and James H Lockwood to examine into the situation of Ive Glass on Complaint to the Commissioners that she was supported by private Charity and other improper resources. She being
p11 first cited to appear and show cause why the Commissioners Should not proceed to provide for her Children Col W. Morgan being sworn deposeth and saith that some time ago two or three of the officers called on him and stated that M. Clark had told them that Mr. Bribois had stated to him that Mrs Glass was in a suffering condition, for Wood and perhaps for Provisions and requested to be permitted to furnish her perhaps both with Wood and Provisions at their own expense I gave them the permission they asked for and told them I would contribute something for the same purpose.

A few days afterwards I received a Note by a small Boy which boy said he was a son of Mrs Glass in which she requested me to furnish her with some Wood and she would be under obligation to me. I sent for Lieut Scott and requested him to to Mrs Glass and ascertain her circumstances he reported to me during the day that he and Doctor Jassey had been to see Mrs Glass and had ascertained that she appeared to be in want of wood. I requested him to enter into a Contract with A V Lockwood for wood to the amount of $20.00 and the officers could pay for it and further saith not.

Nicholas Bribois being sworn deposeth and saith that sometime since she Mrs Glass sent Mrs Vertefeiulle to ask me for a little provisions for her
p12 Children I told her that I I would see you and the Colonel to know if you could not give her something

Question by Commissioners - Does not Mrs Glass send to you everyday for provisions?
Answer - I told Bourgignou to give them some provisions when she sent for them and since that time I see the children almost every morning go to the Kitchen for something -

On hearing the testimony of Col. Morgan and M. Boilrein Esq. the Commissioners are of opinion that Mrs Glass is supported by private charity and other improper resources and it is hereby ordered and decreed that the Children of Joseph and Mrs Glass be bound out to some good person until they shall be of the age that the law requires to make them free Given under our hands at Prairie du Chien the ninth day of January One thousand Eight hundred and twenty four

On the left hand pages we hand You a petition to Congress for a Grant of the Lot whereupon Old Fort Crawford stood with the old buildings which are mostly in ruin and concerning which Coln Morgan has wrote to the Secretary of war requiring that he may be ordered to give the same up to the County ~~of~~ in Conformity to a Verbal agreement. The lands on which the new Fort is built was deeded by Judge Doty to the County, but as it was desired by the officer in Command that the New Fort should be built Upon that Spot "being on high mound" the supervisors verbally Agreed that if when the New Fort was built & and old one evacuated the U. States
p52 would give up the Lot & buildings to the County for its Court House & they would give up the Lot they desired. They have now nearly all moved over and in Spring the old Fort will be evacuated, and we wish you to endeavour to have a law passed granting to the County the lot & building, upon the Conveyance on the part of the supervisors of the Land Deeded to them by Judge Doty

Judge Doty has for the purpose of removing all pretence of Claims & to satisfy the Officers who made the Location given a quit -- claim Deed to the United States, but it is fact of no avail for the right is without dout at this time in the County of Crawford Yet the County is willing the moment a grant is made to them to Deed the ~~same~~ land whereon the new Fort Stand & we wish you to make it a Condition in the Grant, we presume You will refer to the position and size of the Fort If tho any deffinity should owner of grant of the land above the Lot Confirmed to Nicholas Boilvin in the Village of Prairie du Chien, and including all the land above & north of Said Lot of N Boilvin Contained between the Mississippi and the Marais back of the Said Village And you will Oblige.

To Col S Taylor

Sir

In reply to your letter of the 23 of October 1833, we have to Say; that upon Examination of the buildings of Old Fort Crawford, made upon the receipt of your letter, we found that so great a portion of the timber necessary to repair the Block House and Magazine for County purposes, had been taken by the Qt. Master as not to leave a Sufficeincy for the object Contemplated

p67 We therefore declined accepting or taking possession of the buildings offered to be turned over to us. The instructions to Capt Barker late Q. Master of Fort Crawford, authorising him to turn over the old site of Fort Crawford with the buildings &C. to the authorities of Crawford County, appears dated on the 24 May 1833, From the time of that order or instruction, to the time of the reception of your letter the greater part of the timber necessary to the repair of the Block House and the Magazine &C. for County purposes had been taken away by the Q. Master and during the time we had no knowledge of the Order to turn them although we had addressed a letter to Capt Loomis Comg at Fort Crawford upon the subject dated 24 June 1832. Considering that the buildings at the time they were Offered to be turned over would be of no benefit to the County owing to their dilapidated State we declined accepting or taking possession of them

We owe you an apology for not replying to your lettre at an Earlier date. The neglect was oweing to the irregularity of the of the Board

p85 To His Excellency the President of the United States

The Supervisors of the County of Crawford in the Territory of Michigan, acting for an on behalf of the People of Said County and at their request, Would most respectively Submit to your Excellency the following representation and petition. -
The County of Crawford, as it now defined, includes only the Country lying between the Mississippi and Wisconsin Rivers to which the Indian title has been Extinguished, which extends only to the reservation at and around the ancient Settlement at Prairie du Chien, Owing to the indefinite language of the different Indian Treaties, relative to this Settlement, it is left in doubt and uncertainty as to What Extend of Country, precisely, the Indian title has been Extinguished, and what are the proper limits of the County. -

The Settlement at Prairie du Chien, was originally made by the French Traders While the Country belonged to the Government of France as a dependency of Canada, the Ownership of the Soil, was then in the Fox Indians, Who were found in its Ocupency and possession, a district of Country was purchased by those traders from the Indians according to the custome of Making Such purchases under that Government for the purpose of making a Settlement, The periode at which this was done, it so remote, that it is
p86 perhaps, impossible to ascertain Certainly the Extent of the purchase that was thus made; but it is understood at this day by the Traders and the Indians, and has been as far back as the recollection of the oldest Citizens of the Place extends, that it includes all the lands lying between the Kickapoo, Wisconsin and Mississippi Rivers, and about fifteen or twenty miles North from the mouth of the Wisconsin - - After the Canadas, and all their dependencies passed from the possession of the French to that of the British Government the purchase was (remade) by the Agent for this part of the Country of the British Indian Department, who paid the Indians, on account of his Government, a large amount of goods for the relinquishment of their title This took place about the year 1785. and is well recollected by some of the old Settlers of this place who were here at that time.

The Neighboring Indians Consider this district of Country as properly belonging to the White people; they have not for many years, had any Villiage or Settlement Upon it, and rarily hunt upon the ground, never more than they do upon Other unsettled lands of the United States in their Vicinity. The Winnebagoes Own the Surrounding Country on the north and East, and Ocupy the northern bank of the Wisconsin above the mouth of the Kickapoo, as the Successors of the Sacs & Foxes Who have been driven Step by Step from Canada to the West of the Mississippi. The Winnebagoes never Owned the district of Country which we have designated above, and Foxes who were found in possession of it by the first Settlers have been by different Treaties, removed some fifty miles to the West.

p87 The old french Settlement at Various places in the Northern and Western part of the Country, have always been Secured and protected by the Government of the United States, and have been frequently reserved and Confirmed by treaties with different Indian Tribes,. The 3rd Article of the treaty of Greenville, made the 3rd df Augest 1795 fixes the boundery line between the Indian Tribes and the United States, and by it the Indians Cede to the

United States, Various Small Specified tracts beyond the Said boundery line; and by the 4th Article the United States relinquished their claim to all other lands beyond the Said boundry line between the Ohio and the Mississippi Rivers the Lakes and the Northern boundary line of the United States, explicityly excepting General Clark's grant near the rapids of the River Ohio, the Post at St Vincennes and the lands adjacent to Which the Indian title has been Extinguished, the Post of Fort Massac, and the lands at all other places in possession of the French people and other white ~~Settlement~~ Settlers, of which the Indian title has been extinguished by gifts or Grants to the French or English Governments, The provisions of this Treaty, it is Considered embraced the Settlement at Prairie du Chien and the adjacent Country, as it has been in possession of the French people for a long time previous, by English Government as we have before ~~maintained~~. mentioned.

By the 3rd Article of the Treaty of St Louis made 24th Augest 1816 there is reserved from the Indians three Leagues Square at the Mouth of the Wisconsin River, including both Banks and Such other tracts on or near
p88 the Wisconsin and Mississippi Rivers as the President of the United States may think proper to reserve: Provided that such other tracts shall not Exceed in the Whole the quantity that would be Contained in five Leagues Square. It is not known to us, that the President has ever exercised the power vested in him by this treaty, of reserving any quanity of land in this vicinity in addition to the three Leagues Square. - The reservation has never been Surveyed, and it is not known, ~~with~~ Certainty what Extend of Country will be included in it, but it is believed that the three leagues Square and the quanity of five Leagues Square, Which the President has the power (if not heretofore exercised elsewhere) to add to it, will embrace all the Country between the Kickapoo, Wisconsin and Mississippi Rivers, and the Second large Creek that emties into the Mississippi, from the east above the Mouth of the Wisconsin, Called by the French Coule' des Male.

By the 10th Article of the Treaty of Prairie du chien made 19th Augest 1825, establishing the boundary lines of the different Indian Tribes parties thereto, among Other reservations, and Exceptions, the Ancient Settlement at Prairie des Chiens and the lands properly thereto belonging, are Explicitly Excepted from the Claims of any of the Indian Tribes, In Considering this Exception, the question arises; What is the land Properly belonging to this ancient Settlement? We think, that upon examination, it will be found that but One Answer Can be given - that the land Properly belonging to the Ancient Settlement, includes all the land Originally granted by the Indians for the use of the French Settlers, extending to the limits above mentioned.

This Opinion receive Strength, and Confirmation from the fact, that the
p89 Winnebagoes Who Ocupy the Country on the North and east, never owned this tract, and that they do not, as we understand pretend to claim any part of it; and the Foxes who were the Owners of it: at the time when the Original Settlement was made, do not now own a foot of land on the East Side of the Mississippi nor within less than about fifty miles of this place on the West. And although the last mentioned Treaty fixed the boundary of the Winnebagoes Country from where the Sioux line Crosses the mississippi Oposite the mouth of the Upper Ioway up to the Chippeway Country and around

to the North, east South and west up to the Wisconsin, it leaves the line between that Tribe and the Settlement at Prairie du chien, altogether undefined. Whether the question is Considered with this views of the Subject or in reference to the express reservation under the Treaty of 1816. and the additional reservation in the Power of the President to make, it will Secure to the Settlement the district of Country above designated.

We beg leave, most respectively, to Call the attention of the President to the importance to the people of this Country that the above Construction Should be given to the Indian Grants and Treaty, Stipulations (Which Seems to us to be the only proper one of which they are Susceptible;) and of having the Country surveyed and the boundaries designated and Established. The Settlement at Prairie du chien, is the extreme northwestern Settlement of the United States and one of oldest on the frontier. It has always been exposed, perhaps more than any other, to all the dangers hardships, and privations, incident to its Situation, Its location and relative position to other part of the Country, under it a place of Great public importance as a depot for the Army and for the Commerce of the upper Mississippi and
p90 the Wisconsin. The County of Crawford is is the oldest organized County in the Territory West of the Wisconsin Portage, and under the laws of the Territory, the people of the County have to bear all the burdains of Supporting their public institutions without any aid from the Territorial Treasury. The Small portion of land to Which private titles have been acquired or which is open to purchasers, and the uncertainty which generally prevails as to the Extent of Country to which the Indians title has been extinguished discourage emigration and greatly restrict the growth and prosperty of the Community, The claims that have been Confirmed - to the Old Settlers, are not Sufficient for the present population, and of all the land in the County Owned by Individuals there is not a Single Acre of timber, all the Supplies of that Article for the use of the Citizens, have of necessity to be drawn from the public lands, many part of the Country between Kickapoo and Mississippi are well adapted to agriculture, and Could the lands be purchased, they Would be soon Settled, both by Our own Citizens and by emigrants who would be induced by the many advantages of the Situation, to establish themselves here if they Could Secure titles to their homes, The Timber alone, would induce almost every Cetizen Who is able to purchase a tract for the necessary use of his house and his farm. The Survey and Sale of the district which its boundries established upon the principels above ~~Stated~~ Set forth, would be a measure of incalcuable advantage to the people of the County, It would encourage and promote agriculture, extend the necessary means of a poor but hardy and exposed
p91 race race of Citizens, advance the population, by inciting emigration and Settlement, increase the political Consequence and importance of the County and promote the domestic Prosperity of the Community, and thereby add to the General intrest of Our common Country.

We therefore pray, that the President will in persuance of the different Treaty, Stipulations and Grants to the Old French Settlers, According to the Common understanding of the Indians and the people, Cause the reservation at this place to be Established so as to include all the land lying between the ~~Mississippi~~ Kickapoo, the Wisconsin and the Mississippi Rivers as far North as Coule' des Males and the East line drawn from the head of ~~that Stream~~ to the Kickapoo: and that the Country may as Soon as practicable, be Surveyed and Offered for Sale, We are not assured whether any

Act of Congress Will be necessary to enable the President to Carry Out these Viewes, in Case they Should receive his Sanction: Should it be So, we pray that a recommendation may be made from the proper Department for the passage of Such an act as may be necessary. Securing the usual Pre-emption rights to actual Settlers. Should it be Considered necessary to enter, into further Stipulations with the Indians, relative to their boundry before the one Prayed for can be established, we Pray that the necessary Measures may be taken to hold a Treaty with the Winnebagoes for the purpose of fixing and Establishing the limits between them and the
p92 Settlement at this Place -. Accompanying this is a rough Sketch of the Country embraced in the Petition, which, though, not drawn from any Survey is beleeved to be, in general Correct.

To Marsh & Bugbee, No. 16. Eleven dollars & Ninty five cents,
The board of County Commissioners, authorized William Wilson, Sheriff, to have or cause to be made a Desk for the Court Room, for the Judge, a Table for the Clerk & the bar of the County & Jury benches -; the board allowed to Saml. Gilbert five dollars - as director of the Poor for his own services for the past year - and an order on the Treasurer was given accordingly for five dollars - numbered 17. - on examining the
p118 proceedings of the late Supervisors, the board of County Commissioners find that the said Supervisors have exceeded the powers given them by Law,

in appropiating the money of the County raised by Tax for County purposes, in paying for a Bridge across the Marias of St. Friole -;
James H Lockwood, therefore moved the following Resolutions;
That the Clerk of the board of County Commissioners ascertain as near as may be the amount of money illegally drawn from the County Treasurer, and applied to the payment of Said Bridge, under the contract with Julien Lariviere, contrary to Law; and give notice to the said late Supervisors that they are required to refund the Same to the County Treasurer forthwith:
Samuel Gilbert, one of the board of County Commissioners, Protests against the foregoing Resolution, believing, the act alluded to so small a departure from the Law, that it would be to the Interest of the County to Sanction their Acts-. It appearing from the Record herewith kept in this book, that William Wilson, one of the late Supervisors has attended as Supervisor for Seven Sittings and having now asked for his compensation according to law, the board of County Commissioners hereby grant him an order for Seven dollars on the Treasurer numbered 18:-
the board of County Commissioners hereby establish, as Precincts for holding the Election, First, Prairie du Chien Court house, and Secondly,

p157 To the Honorable the Senate and House of Representatives of the United State in Congress assembled -

The Memorial of the undersigned for themselves and on behalf of the Citizens of Crawford County in the Territory of Wisconsin respectively represent to Your Honorable body that your memorialist duly Elected And qualified as a bord. of Commissioners for the County of Crawford aforesaid in the discharge of that portion of their official Duties which provides that they are to represent their respective counties to have the Case of the County property and the Management of the business and concerns of the County in all Cases not otherwise specially Provided for "(Laws of W T 105) as well as in Compliance With The desires of The People of said County find it Necessary to Lay before Your Honorable Body the following Statements of facts in relation to a matter of great importance to the County of Crawford and to their fellow Citizens of Prairie du chien, and to ask of Your Honorable Body that Prompt Consideration of their Memorial Which its importance merits and such adequate relief in the premises as Justice and good faith demand - - - Your Memorialist ask to have Confirmed to them and Their successors in office for the use and benifit of the County of Crawford a certain Tract or district of Country Lying and being in said County of Crawford and assign the following reasons therefore

Of the Early White settlements made in that portion of Country lying
p158 between the Waters of the Northern Lakes and the Upper Mississippi- the settlements at Prairie du chien if not the first were among the first that were permantly Established. The precise Period cannot now be accurately asscertained The Original settlers were French Traders The Country at that time being Claimed by the French Government as an appendage to the Canadian Provinces, At the time of the first settlements at Prairie du chien- the ownership of the soil was in the Fox Indians Who were found by the French in the full occupancy and Enjoyment of Their propriatury rights.-

From this Tribe of Indians the French Traders Purchased for Themselves ~~and-their~~ and their decendants a Tract or district of Country for the purpose of Making a permanent settlement- The purchase was made in good faith and accompanied With all The forms usual on such' occasions and recognized by Indian Customs-
The Validity of this purchase has never been disputed by the Indians and The rights of The settlers under it were acknowledged by The Powers That subsequently acquired The rights of jurisdiction over The Country - Those rights have never been forfeited or relinquished. but have decended by an uninterrupted succession to the Citizens of of Crawford County

Owing to The Length of time which has elapsed since This purchase
p159 was made And to other Causes natural to the situation And habits of the Contracting Parties it is now almost impossible for your Memorialist to define with strict accuracy The precise Extent of The tract Country Purchased-

Legal or technical precision of desription cannot be Expected to have accompanied a bargain effected by Parties Who rarely if Ever resorted to the line and Compass - Who generally embraced Their sales or Purchases of Land by The most prominent Land marks such as ridges of hills streams

of Water &c. which nature had placed Convenient And to Whom a few acres ef More or Less of wilderness was of Minor import -

In This as in all similar Cases the Evidence of the parties themselves or their successors Who are the Natural Depositories of their knowledge of social Matters Immmemorial usage uninterrupted & undisputed possession and general opinion must be resorted to for information as to the Extent and boundaries of the Purchase

It has been the received opinion of the Indians and Traders here that the Purchase in question includes all the Land Lying between the Kickapoo Mississippi Rivers Running North about fifteen or twenty Miles from the Mouth of the Wisconsin River Such is the opinion of the oldest inhabitants of Prairie du chien who derive their information from the purchases Themselves or from Their immediate Decendants Such are also the Limits which Tradition and general opinion have affixed to the purchase and it is
p160 to the unoccupied portions of The Land included within these Limits That the settlers of Prairie du Chien resort (as The Common property of all) for pasturage wood and hay

When the Canadas with Their dependences Were Called by France to Great Britian The settlers at Prairie du Chien The better to secure Their purchase renewed The Purchase Through The agent of the british Indian department for This section of Country Who paid The Indians on account of his government a Large amount of goods for the relinquishment of Their Title. This second purchase was made A. D. 1785 and is still fresh in the recollections of some of The Present inhabitants of Prairie du Chien Who Were present at The Transaction -

The British Government at all Times thereafter acknowledged The legality of The purchase and Treated the Prairie du Chien Settlers as The absolute Owners of the above defined District of country

The Indians in the Neighborhood have always Considered and Treated The same tracts as the property of The Whites,- For Many Years They have had No Villages or settlements near it and have rarely resorted To it for hunting purposes - The Winnabagoes Were the successors of The Sacks & Foxes and Who Were in possession of The surrounding Country never Claimed or Enjoyed possession of This Tract - They were aware of and respected The rights of The Prairie du Chien settlers acquired by Their purchase from the Foxes -

In Conformity to The principles of Equity and to the usuages of Nations.
p161 The French settlements in various places in The Northern and Western portions of Our Country have been secured and protected by the government of The United States in all Their rights and privileges and in many instances the acknowledgement of These rights have been The subject of Treaty stipulations

By The Third article of The Treaty of Greenvill made in A D 1795 - defining The Boundary Line Between The Main Tribes (interested in The treaty) And The United States The Indians cede to The United States various small specified tracts beyond The said Boundary Line and by The 4th article The United States relinquish Their claims to all other Lands beyond The said boundary Line between The Ohio and Mississippi Rivers the Lakes and the Northern Boundary of the United States.

Explicity Excepting General Clarks grant near the rapids of The Ohio river the post at St. Vincenns on The Wabash and The Lands adjacent, to which The Indian title has been Extinguished. The Post-at Fort Massact

And The Lands at all other places in possession of The French People And other White settlers to which The Indian Title has been Extinguished. by gifts or grants to the French or English Governments. (see Book at Indian Treaties P 57) The provisions of This Treaty as Your Memorialist Concieve Clearly Embrace The settlements at Prairie du chien and the adjacent Country. as That Tract or District of Land have been in The Possession of The French People a long time previous to the cession of
p162 The Country to The British Government as herein previously set forth - The settlements at Prairie du Chien Are Especially referred to at a subsequent Period And made The subject of Treaty stipulation

By The 10th section of a Treaty Concluded at Prairie du chien August 19th A D 1825 Between The United States and the Sioux and Chippeways &C, Among other reservations "The Ancient Settlment at Prairie du Chien And Green Bay, and The Land properly Thereto belonging", are not Claimed by Either of said Tribes (Book of Treaties P 347)

Thus Explicitly recognizing The rights of the Prairie du Chien settlement-

As in all points The Cases are parallel it may not be out of Place here to state for Your Honorable Body The Course persued in relation to The Green Bay settlement.- At a Treaty Concluded August 11th 1827 - it was provided in The 3rd Section Thereof That the Boundaries of the Ancient French Settlements should be Defined And Settled (Book of I Treaties p 413) This was accordingly Done as to The Green Bay settlement and The just Claims of the settlers securely adjusted, may perhaps be Considered unfortunate That A similar Course was not persued in The Matter of The Prairie du Chien Settlement But Your memorialist- Can not for an instant Entertain the belief That an accidental omission to Take advantage of
p163 favorable circumstances will place Them in Equally just Claims to relief in a Worse situation Than their neighbours of Green Bay, More particularly as The Government of The United States to which They owe allegiance and from which They claim protection has succeeded to all the rights of The original proprietors of The soil.- That Justice which was not refuse by The Indians Can surely be Looked Forward to With Confidence, from our Own Government.

In reference To This reservation in The Treaty of Prairie du Chien The question arises as to What and how much Land should be included Properly as belonging to the Prairie du Chien settlement - Your memorialist deem that There Can be but one opinion on This point.

The intention of The parties to the Treaty Evidently Was to include all The Lands Originally granted by the Fox Indians to and for The use of the French settlers And Comprised in the Limits mentioned in The foregoing parts of This Memorial

This opinion is strengthened and confirmed by the fact that The Winnebagoes Indians Who Were party to the Treaty of Prairie du chien And Who succeeded The Foxes in The possession of The Whole Country adjoining The ancient settlement of Prairie du chien Never Claimed or attempted to possess This district of Land - As the immediate successors of The Fox Indians The Winnebagoes Must have been well informed of the rights of the Prairie du chien settlers to a settlement within Their
p164 Territories as well as The Extent of The Lands purchased And it is fairly presumable That the same tribe of Indians carried This Knowledge to The

Execution of the Treaty of Prairie du Chien in 1825, to presume anything else would be to force a Conclusion Contrary to The natural effects of Established facts.

Your Memorialis in Concluding This brief outline of the History of Their Claim, Venture to express Their Confidence that a purchase made in good faith recognised by the Indians and protected by The Government of France And England - A purchase which has been maintained by a constant Exposure to The perils of a border Life, May yet under The Protection of an Enlightened Congress be secured to the benefit of its just and Legal Owners

Your Memorialist Therefore pray your Honorable Body to Take this Memorial under Consideration and to pass such act or acts, and to take such other and further steps as may be necessary Therefore to The End, that the Land properly belonging to, and included in, the original Purchase by the French settlers, of The Fox Indians, May vest in The County of Crawford for The benifit of sd County. And Your Memorialist as in duty bound Will Ever Pray &C -

I certify the foregoing is a true copy of the original Memorial of the Co. Cour of Crawford County Attest John Thomas Clerk of the bord. C. C.

Rice to View & locate a Road Commencing at the termination of the Road now Established 50 miles North of Prairie du Chien on the dividing ridge that divides the waters of the Mississippi and Kickapoo Rivers made the following reports

The undersigned Viewers appointed by your Board at their April Session 1845 for the purpose of Locating a Road- From the termination of a road heretofore located on the dividing ridge between the Mississippi & Kickapoo Rivers to the Falls of Black River respectfully submitted their report That they set out on the performance of their said duty on the 14th day of May last and Concluded their duties as Viewers on the 30th day of same month and after giving the route as careful an examination as the circumstances of the Case would admit have come to the conclusion that the most practicable route is by way of Prairie La Cross That portion of the route between its commencement & La Cross is one mi back in ridge running between the Mississippi and Kickapoo

Rivers and La Cross and Coon rivers and from La Cross to the Falls of Black River said route passes over a low roling Country requiring no
p201 labour to open a road with the Exception of the Bridging of a few small streams which your Viewers believe the Settlers on Black River are ready and willing to do and we therefore recommend it location on the ground as designated by the notes of the surveyor

Which is Respectfully Submitted
H. G. Rice
James Fisher

The following is the Report and Field notes attached thereto of the County Surveyor S. P. Folsom of the road 1st commencing at the Termination of the road now Established on the dividing Ridge that divides the Waters of Mississippi Rivers and Kickapoo Rivers fifty Miles North of Prairie du Chien W. T.

Prairie du Chien July 7th 1845
To the Hon Board of County Commissioners of Crawford County W.T.

Agreeable to your order of Court Ordering a Survey of Road to the Falls of Black River I Proceeded to Execute Said Order on the 14th day of May under the direction of the Viewers appointed for Said purpose Commencing at the post fifty Miles from Prairie du Chien and proceeding on the Ridge dividing the Kickapoo and Mississippi Rivers Twenty seven miles when the Viewers decided it impossible to proceed further on said ridge and not being decided on the route dismissed me for the time until they Could make further observation of the Route-

p202 July 7th 1845

By notice from the Viewers I again proceeded on the 16th June to Survey Commencing at Sixty one Mile Stake and continue on the ridge dividing the Coon and La Cross Rivers to Prairie La Cross thence up the Black Rivers to the Falls the place of destination- The field notes of which surveys are herewith respectfully Submitted

At a Regular Meeting of the Board of County Commissioners of Crawford County Wis Tery held at the office of Said Board on the 6th day of April A D 1846

Present Wm Curts)
Joseph Morrill) Commissioners
Ralph Smith)

To the Hon Board of Commissioners of Crawford County.

The Report of Heman Baldwin and Hiram Knowlton a Committee appointed to Examine into and report the fiscal Condition of Crawford County

Respectfully showeth that they accomplished their business and cannot find any fraud or real neglect in the acts of the County officers

We find the following facts relating to the issuing and cancelling of the County Orders "To Wit"

The whole Amount of County Orders issued commencing April 2d 1838 and ending January 1st A. D. 1846 to be the sum of $21625.83 Amount of County Orders cancelled by the County Commissioners from April 2? 1838 to January 5th 1846 to be the sum of $18257.25 leaving the balance of County orders due and outstanding January 5th 1846 to be the sum of $3368.58 also the Amount of $405.74 due the School fund on the 5th day

of January 1846 making the sum of $4118.33 due and outstanding on the 6th
p237 day of Jany 1846 of which there is due the County on the County Taxes for the Years 1844 & 1845 the sum of $988.30 not Yet Collected also the sum $142.76 of orders warrants & Territorial Scrip and the sum of due from the Territory and the sum of $150.00 in the hands of the Collector as pr his Report made to the Board on the 5th day of Jany 1846 which Amounts when collected will leave a balance due by the County of the Sum $2263.06 3/4

it does not appear from the record that any settlement for the Year 1840 was ever made The great Error as to the outstanding liabilities seems to have been in Consequence of this and the manner of Settlement and reports previous to the Year 1844 the former mode of reports having been made so as to include the Treasurers fees the interest on old orders and the balance due the Treasurer upon former settlement with the amount of orders cancelled and deducted from the amount of issues and called the residue the balance against the County Hiram Knowlton in regard to the account will say that having examined the account he is of opinion that no account having ever been allowed that can be Collected at law indeed it could hardly be expected that those not skilled in the law could make over a thousand decision without Committing some legal Errors; it is well known to be case that the most learned Lawyers disagree and may be mistaken more especially when the County attorney neglected to attend and giving his advice as was the case previous to October A. D 1843, since which time
p238 the attorney or a substitute has been in constant attendance and many claims have since been rejected that were formerly allowed as for example if a person attended as a Juror and a witness in several criminal cases he was allowed a full witness fee in each case besides his Juror fees the Commissioners set as a court upon all Claims against the County having law and equity jurisdiction and it is to be presumed that they always directed according to the equity of the Claim when the legality of it was doubtful formerly however there seems to have been a more liberal price upon such as now was allowed than has been of late years A very few examples will illustrate this in the Year 1838 and while there was money in the Treasury a mechanic was allowed and paid $2 25 per day for common work and the County Surveyor was allowed and paid $3 00 per mile for surveying a road (in 1845 the allowance has been only $1 00 per mile) also in the year 1841 a Surveyor was allowed and paid $5 00, pr day for work done in Prairie du Chien I have also found many old Claims allowed & paid since 1842. which were a just charge upon Former years as for example in 1843 two bills of stationery for the Judge of probate were allowed and paid one for the year 1838 and one for the Year 1839 which certainly could have been Collected by law of the county This system of allowin Claims has from necessity been followed ever since though to a less extent so that the number of orders issued in any one Year is not the Exact amount of Expenditures for that Year the foregoing will be understood as Examples for illustrations -

p239 The Committee think it will not require the intellect of a Philosopher to understand the reason of such a great amount of Orders having been issued for the last three or four Years last past than was issued previous to that time formerly there was only one week of Court which was no expense to the county in the year 1843. there was nine Prisoners in Jail and

usually from sixty to one Hundred Jurors attending and about 40 Witnesses at one term of the Court all of which to be paid by the County besides in the Same Year repairing & improving the Court House which was erected and finished in 1834 and other County Expenditures The same remark will aply to the Years 1844 & 1845 In 1845 there was expended for roads & bridges from $700.00 to $800.00 Dollars and Territorial Tax of $133.59 in addition to former Years It also appears that from October Term 1841 to October Term 1842 there were 21 Criminal Cases brought to the District Court all of which failed from defect in the indictments or neglect of the prosecution There was at May term 1843 Thirteen (13 criminal prosecutions brought to the District Court and one Conviction and two continuances from Oct Term 1843 to Oct Term 1845 inclusive (Five Terms) there has been Nine Criminal prosecutions brought to the District Court with two Convictions two Continuances and no dismissals from defects in indictments or neglect of prosecution If there has been any real neglect- it seems to have been in one of the prosecuting attorneys We will however express no opinion as the facts are all that the committee found bound to state

Prairie du Chien 4 Jany 1848

To the Board of County Commissioners for the County of Crawford

The undersigned Trustees for building the Bridge across the Marais de St Friolle respectfully represent that there is a balance due the Contractor & others for building Said Bridge which they have no means of paying Amounting to Four hundred & twenty dollars $420.00

The trustees have attempted several times to raise the above amount by voluntary subscription but a large Majority of those they have Consulted on the subject expressed their opinion that inasmuch as said bridge is a public Highway for the accommodation of all persons it should be made a County charge the larger proportion of the Expense having been liberally paid by the individuals of this place amounting to upwards of $1000 00

The trustees are also of the opinion that the comparative small amount which is now due should be made a public charge and respectfully pray your Hon Board to appropriate such a sum as will enable the trustees to take up the obligation which have stood against them for nearly two years and as in duty bound will not pray &c
